

USEFUL INFORMATION AND TRAVEL RULES

TRAVEL TICKETS: PURCHASE AND OBLIGATORY VALIDATION

Buy tickets before boarding or on-board (with a surcharge)

Passengers must be in possession of a valid ticket before boarding the bus and must show it to the driver. Tickets may be purchased on the bus from the automatic machines, where present, and/or from the driver, paying a surcharge if applicable. Tickets must be purchased immediately after boarding or electronically using an App (Dropticket, My Cicero, Muver, Roger).

Validate your ticket as soon as you board and check the validation to avoid fines.

Passengers are required to validate their tickets in the special machines on the bus (validating machine) the first time they board the bus and every time they change from one bus to another, even if they are in possession of a personal electronic pass. Only tickets purchased from automatic ticket machines on the bus do not require validation. Tickets validated as indicated above must be kept for the duration of the journey. Sold/issued tickets are not refundable, but can be exchanged at Punto Bus Start Romagna for other tickets with the same face value or higher, paying any price difference. Any tickets purchased via an App must be validated and are not refundable.

Notify the driver immediately if the validating machine is not working properly.

PENALTIES

Passengers without a suitable and valid ticket are subject to the penalties pursuant to Art. 40 of Em. Rom. Regional Law no. 30/1998 and subsequent amendments. Passengers are responsible for ensuring that their tickets are correct and that the date and time of validation have been printed on the ticket and, if electronic tickets are used, checking the display on the machine to make sure they have been validated. The amounts of the penalties are determined pursuant to regional law and can be found at www.startromagna.it and on the back of the penalty notice, pursuant to applicable law.
